Handcrafted from genuine leather
Each KeyBudz Leather Keychain is carefully handcrafted from high-quality genuine leather that is made to age beautifully with time. The more you use it, the more character it develops, creating a rich patina that reflects your everyday adventures. Soft to the touch yet durable enough for daily use, it turns your AirTag into a premium accessory rather than just a tracking device.

Secure, snap-lock design for your AirTag
Your AirTag slips into the leather holder and stays safely cradled inside. The secure snap-lock closure keeps it firmly in place so it will not fall out, even with constant movement on your keys or bag. When you need to move your AirTag, simply open the snap, swap to another item and lock it again in seconds.

Elegant everyday carry for keys, bags and backpacks
Designed for versatility, the integrated keyring and leather loop make it easy to attach the holder to keychains, handbags, backpacks, luggage, pet collars and more. The minimalist design complements both casual and formal styles, turning a simple tracker into a refined everyday accessory that looks as good as it works.

Passive protection from scratches and wear
By fully cradling your AirTag, the leather holder helps protect it from everyday bumps, scuffs and scratches. The snug fit keeps your AirTag from rubbing against keys or metal hardware, while still leaving the signal and tracking performance unobstructed. Your AirTag stays looking new for longer, even with heavy daily use.

Convenient 2-pack for multiple items
The KeyBudz Leather Keychain for AirTag 2-Pack gives you more ways to stay organized and secure. Use one AirTag holder for your primary keyring and the other for your bag, backpack or luggage, or share one with a partner or family member. With two holders in every pack, it is easier to keep track of the items that matter most.
