Crisp 4K Display Support
The ALOGIC Elements USB-C to HDMI Adapter stands out with its ability to support ultra-high-definition resolutions. With HDMI 2.0 compatibility that allows resolutions up to 4096x2160 at 60Hz, it ensures every detail is rendered smoothly. Whether casual gaming or professional high-def presentations, this adapter supports a 1080p resolution with an impressive 240Hz refresh rate for ultra-responsive visuals.

User-Friendly Design
Convenience meets functionality with the user-focused design of the ALOGIC Adapter. Its bendable architecture and compact connectors make installation in tight spaces effortless. The easy-grip PVC jacketing ensures user comfort, while a sturdy latch provides a firm connection, ensuring a hassle-free and secure user experience.

Durable and Reliable
Crafted with an ABS connector shell, the ALOGIC adapter is built to withstand high-traffic environments, ensuring longevity and reliability. Rigorous testing through numerous applications affirms its unwavering performance, a promise backed by our lifetime warranty that assures you of the product's enduring quality and durability.

Eco-Friendly Packaging
In line with our commitment to sustainability, ALOGIC's packaging for this adapter is 100% recyclable. This eco-friendly approach ensures that your operations remain sustainable while you enjoy the exceptional quality our product offers, effectively balancing environmental responsibility with consumer satisfaction.

Compatibility and Versatility
Versatility is at the core of the ALOGIC USB-C to HDMI Adapter's design. It connects USB-C ports that support DP Alt Mode video output to HDMI displays, ensuring seamless functionality with Thunderbolt ports. This uni-directional design makes it compatible with a wide range of modern devices, perfectly suited to meet the demands of both personal and professional environments.
