

## Baseus silikonskal för iPhone 11 Pro - Vit

Baseus Silicone case for iPhone 11 Pro is made of pacifier grade liquid silicone material. The case features an anti-fingerprint and anti-scratch functions. The all wrapped design with an arch edge provides your phone with all-round protection and comfortable hold. The case fits snugly on your phone without adding any bulk to it.

### **Food-grade liquid silica gel**

The cases are made with Soft pacifier grade liquid silicone material, that is usually used in baby pacifiers, which is safe and odourless.

### **Convex lens protection**

The convex lens designs are used to achieve more comprehensive protection.

### **Silky and thin touch**

The cases feel lighter and silkier to the touch and feel great when you hold it.

### **Softening process for the button interface**

The softening process used for the button interface makes the button operations more convenient and prevent scratches and bumps to the phone.

### **Translucent design**

The translucent design on the case reveals the true nature of the phone and you are able to clearly see the phone.
