Keybudz Covert Mount - 1-pack for AirTag - Black

Securely track your valuables with confidence. The Keybudz Covert Mount - 1-pack for AirTag is crafted to withstand harsh conditions and ensure your AirTag stays in place no matter what.

- Ultra-rugged construction
- Waterproof IP-68 protection
- Permanent 3M VHB bonding
- Advanced security with ThreadLock system
- Ideal for various surfaces

Ultra-Rugged Construction
The Keybudz Covert Mount for AirTag is meticulously designed using an ultra-rugged fiberglass reinforced copolymer. This ensures that it can endure the most extreme environments, from submersion in water to high temperatures, providing unparalleled durability for your tracking needs.

Waterproof IP-68 Protection
Built to withstand submersion in water, the Covert Mount offers IP-68 protection. This means your AirTag will remain secure and functional even when submerged underwater for over 60 days, making it perfect for tracking items exposed to the elements.

Permanent 3M VHB Bonding
Featuring 3M VHB adhesive, the Keybudz Covert Mount ensures a permanent bond with a wide variety of substrates, such as low surface energy plastics, metals, glass, and paints. This long-term durability means you can trust your AirTag to stay securely attached to your valuable items.

Advanced Security with ThreadLock System
The innovative ThreadLock system of the Keybudz Covert Mount adds an extra layer of security by preventing the cap from being unscrewed unintentionally. This design deters unauthorized removal, keeping your AirTag safeguarded at all times.

Ideal for Various Surfaces
Whether it's plastic, metal, glass, or painted surfaces, the Keybudz Covert Mount can be securely attached to almost any material, making it versatile for any tracking application you need.
