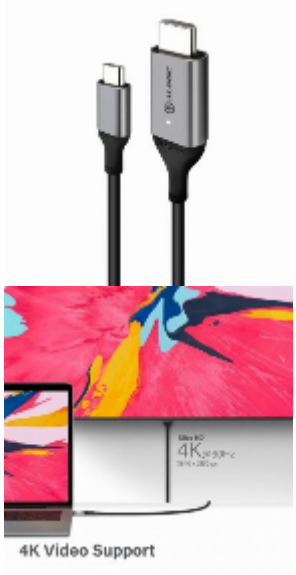
ALOGIC Ultra USB-C to HDMI 4K Cable 1 m - Space gray



ALOGIC Ultra USB-C to HDMI 4K Cable 1 m delivers crisp, smooth 4K at 60 Hz from your USB-C laptop, tablet or phone straight to any HDMI monitor, TV or projector. With premium build quality, simple plug and play operation and a convenient 1 m length, it is the ideal single-cable solution for work, study and entertainment.

- Ultra HD 4K at 60 Hz from your USB-C device to HDMI displays
- True plug and play with no drivers or software needed
- Premium Ultra build quality with aluminium housing and TPE cable jacket
- Smart LED indicator shows when the cable is connected and ready
- Wide compatibility with USB-C and Thunderbolt 3 devices

Ultra HD 4K at 60 Hz from your USB-C device to HDMI displays
Enjoy sharp, detailed visuals and smooth motion with support for resolutions up to 3840 x 2160 at 60 Hz. The ALOGIC Ultra USB-C to HDMI 4K Cable lets you extend or mirror your USB-C device screen to a TV, monitor or projector in full 4K. It is perfect for presentations, editing photos and videos, streaming movies or simply expanding your desktop workspace.

True plug and play with no drivers or software needed
Connect and start working or watching instantly. This cable delivers a direct USB-C to HDMI connection with no adapters, hubs, drivers or additional software required. That means fewer points of failure, a cleaner setup and fast, reliable connections whether you are at your desk, in a meeting room or on the go.

Premium Ultra build quality with aluminium housing and TPE cable jacket
The Ultra range from ALOGIC is designed for durability and style. A robust aluminium housing helps protect the connectors and complements modern devices, while the flexible TPE cable jacket resists wear from everyday use. The space grey finish matches premium laptops and accessories, giving your setup a refined, consistent look.

Smart LED indicator shows when the cable is connected and ready
A built-in white LED lets you know at a glance when the cable is properly connected and ready to use. This simple visual cue makes setup easier, helps with troubleshooting and gives you confidence that your display connection is active before you start a presentation, call or movie.

Wide compatibility with USB-C and Thunderbolt 3 devices
Designed to work seamlessly with USB-C ports that support DisplayPort pass through, this cable is compatible with Windows laptops, Mac computers and Chromebooks that offer video output over USB-C. It also works with Thunderbolt 3 ports, as well as many USB-C tablets and phones that support video out, making it a versatile solution across your devices at home, in the office or on the road.

Package includes
