

The ALOGIC Aspekt Raise Stand is a premium height-adjustable stand designed for ALOGIC Aspekt 32-inch monitors, helping you achieve a comfortable viewing position while keeping your setup flexible, stable, and refined.

- Ergonomic height for comfortable viewing
- Height adjustment for shared workspaces
- Rotate between landscape and portrait
- Tilt and swivel for precise positioning
- Premium aluminium and steel construction

**Ergonomic height for comfortable viewing**

The stand elevates the centre of your Aspekt 32-inch monitor to 46 cm above the desk, helping you maintain a natural eyeline and reduce neck strain during long work sessions. It's designed to suit everyday office and home use, especially where screen height is critical for comfort.

**Height adjustment for shared workspaces**

With up to 13 cm of height adjustment, the Raise Stand makes it easy to adapt the monitor position for different users. This is ideal for shared desks, hot-desking environments, and meeting spaces where fast, tool-free ergonomics matter.

**Rotate between landscape and portrait**

Quickly rotate your Aspekt monitor 90 degrees into portrait orientation for coding, messaging, email, and reading long documents. For the best experience, you'll also need to change the display orientation in your computer's system settings.

**Tilt and swivel for precise positioning**

The Raise Stand supports tilt and swivel adjustments to fine-tune your viewing angle. This helps when working in unconventional desk layouts or when aligning screens in multi-monitor workstations.

**Premium aluminium and steel construction**

Crafted from durable aluminium alloy with steel components, the stand is built to feel solid and look premium on the desk. The custom mount design allows the monitor to snap into place without mounting screws, and removal is just as simple with a press of a button.

**Package includes:**

- Aspekt Raise Stand

**Product specifications:**

- Dimensions (stand only): 240 mm x 460 mm x 250 mm (L x H x D)
