Ultrawide Viewing Experience
Step into a panoramic view with the 21:9 ultrawide screen of the ALOGIC EDGE monitor. With a resolution of 3440x1440, this monitor provides an expansive visual experience that is perfect for activities such as video editing, music composition, or managing large spreadsheets. The ultrawide aspect ratio offers more screen space to see your work at a glance, enhancing productivity without straining your eyes.

Effortless Multitasking
Designed for efficiency, the EDGE monitor simplifies multitasking. With its large ultrawide display, you can easily snap apps side by side, replicating the productivity of dual monitors without the need to juggle multiple windows. Enjoy the freedom to organize your workspace with ease and keep important information within your reach.

Exceptional Connectivity
The ALOGIC EDGE monitor boasts a comprehensive USB-C hub that streamlines your connections. It offers multiple ports, including HDMI, DisplayPort, USB-C accessories, Ethernet, and audio, alongside a 90W Power Delivery for laptop charging. This array of options ensures you have all the connectivity needed for a fully equipped workstation.

Stylish Design with Sustainability
Expertly crafted with beautifully tempered glass and machined aluminium, the EDGE monitor not only complements your existing devices but also contributes to a sustainable future. Engineered with 80% recycled aluminium and sustainable glass, this monitor reduces plastic waste while maintaining a timeless aesthetic.

Powerful Performance
Experience smooth performance with a 100Hz refresh rate that reduces flickering for a more pleasant viewing experience. Coupled with a 14ms response time and 400 nits brightness, the EDGE monitor guarantees vibrant colors and sharp images, making it ideal for both domestic and professional use.
