KeyBudz Jelly Series Transparent Case for AirPods Pro 3rd Gen - Neon pink

Jelly Series Transparent Case for AirPods Pro 3rd Gen – Neon Pink by KeyBudz wraps your earbuds in bold neon style and reliable everyday protection. This slim, see-through case lets the original AirPods design shine through while adding a vibrant pop of color, a secure grip, and full access to all features, including wireless charging.

- Transparent neon design that shows off your AirPods
- Slim, protective shell against drops and scratches
- Compatible with wireless charging and all key functions
- Anti-slip finish for a secure, comfortable grip
- Precision fit made specifically for AirPods Pro 3rd Gen

Transparent neon design that shows off your AirPods
Jelly Series brings your AirPods Pro 3rd Gen to life with a bright neon pink finish that is both playful and modern. The transparent design lets the original case show through, so you still recognize the iconic look while adding a unique, eye-catching twist. It is the perfect balance between showing off your device and expressing your personal style.

Slim, protective shell against drops and scratches
The case forms a snug, lightweight shield around your AirPods, helping to protect against everyday bumps, light drops, and scratches from keys or other items in your bag or pocket. Its flexible, impact-absorbing material cushions minor impacts without adding bulk, so your AirPods stay protected while remaining easy to carry.

Compatible with wireless charging and all key functions
There is no need to remove the case for everyday use. The Jelly Series is designed to work seamlessly with wireless chargers, so you can drop your AirPods case on a charging pad and power up as usual. Open and close the lid effortlessly, keep full access to the pairing button, and easily see the status light through the transparent shell.

Anti-slip finish for a secure, comfortable grip
The soft-touch, grippy surface helps your AirPods case stay firmly in your hand and resist sliding off smooth surfaces. Whether you are commuting, working out, or just moving through your day, the anti-slip finish reduces accidental drops and makes your AirPods easier and more comfortable to handle.

Precision fit made specifically for AirPods Pro 3rd Gen
Designed exclusively for AirPods Pro 3rd Gen, the Jelly Series case follows every curve and contour of the original charging case. The two-piece construction ensures that both the lid and body stay aligned and move naturally, so there is no wobbling or shifting. Cutouts and clear areas are placed exactly where you need them for a clean, tailored look.
