# myFirst Camera 3 - Blue

See the world through your child's eyes with a real, kid-ready camera that makes creativity easy and adventures unforgettable. myFirst Camera 3 combines a 16MP sensor, kid-friendly design, fun lenses, and durable protection so your young photographer can capture crisp photos and HD videos at home or on the go.

- 16MP quality photos and HD videos
- New macro lens for close-up discovery
- Built-in selfie lens for effortless self-portraits
- Shockproof pouch for kid-tough protection
- Long-lasting 1000mAh battery with microSD support up to 32GB

**16MP quality photos and HD videos**
With a true 16-megapixel sensor, your child's shots come out sharp, colorful, and ready to share. From family outings to backyard adventures, Camera 3 captures detailed photos and smooth HD videos that turn everyday moments into lasting memories.

**New macro lens for close-up discovery**
Encourage curiosity with the macro lens that reveals the tiny wonders of the world. Kids can switch lenses and get up close to leaves, flowers, and little critters, discovering textures and patterns that a standard lens can't see.

**Built-in selfie lens for effortless self-portraits**
Selfies are now simple and fun. A dedicated selfie lens above the screen makes it easy for kids to frame themselves and friends without awkward angles or drops. One tap on the lens selector and they're ready to smile.

**Shockproof pouch for kid-tough protection**
Adventures can be bumpy, so Camera 3 comes with a rugged, shockproof pouch. Made from high tensile strength polymers, it helps protect against drops, knocks, and bumps, giving you peace of mind while kids focus on the fun.

**Long-lasting 1000mAh battery with microSD support up to 32GB**
Shoot more and charge less. The 1000mAh battery keeps the fun going, and support for microSD cards up to 32GB means plenty of room for photos and videos. Perfect for vacations, picnics, and everyday exploration.
