Dedicated cable for charging, syncing, and data transfer
The included cable is made specifically for Plaud Note and Plaud Note Pro, providing dependable charging and stable connection for syncing and file transfers. Keep one at your desk or in your bag so you can power up and move recordings to your computer without switching cables.

Ultra-thin magnetic ring for secure phone mounting
The magnetic ring creates a strong, low-profile magnetic interface so your Plaud device stays firmly attached to your phone during daily use. Its slim design helps maintain a clean look and comfortable feel while improving day-to-day handling.

Adds magnetic mounting to non-MagSafe iPhones
If your iPhone does not support MagSafe, the magnetic ring gives you a simple way to add a MagSafe-style mounting surface. This makes it easier to attach and keep your Plaud Note or Plaud Note Pro securely in place without adding unnecessary bulk.

Compatible with a wide range of Android phones
The magnetic ring also works with many Android phones, giving you a consistent mounting setup across devices. It’s a practical option if you switch phones, use multiple devices, or want the same attachment method across platforms.

Ideal as original replacements or convenient spares
This kit includes the same accessory types you rely on every day, making it a smart choice if you need a replacement or want an extra set ready to go. Keep a spare at home, at work, or in your travel gear so you’re always prepared.
