

ALOGIC ThunderBolt 3 Dual Display Docking Station w. 4K & Power Delivery

The ALOGIC Thunderbolt 3 Dual Display Docking Station with 4K & Power Delivery provides a versatile and efficient solution for all your audio and video requirements. This docking station enables you to charge your devices, transfer data, connect dual monitors, and even link to a wired network using just a single cable. Designed to seamlessly work with both Mac and Windows computers, this device represents a revolutionary advancement in convenience and productivity.

- Thunderbolt™ 3 Certified
- Power Delivery
- 4K Video Output
- HDMI
- Dual 4K Display

Thunderbolt 3.0 Certified

The dock uses a single Thunderbolt cable to connect to your laptop, streamlining your workspace and reducing cable clutter. This powerful dock is Thunderbolt 3.0-certified, offering 40Gbps data transfer speed. It not only guarantees rapid data transmission but also ensures reliable performance.

Power Delivery

The ALOGIC ThunderBolt 3 Dual Display Docking Station is capable of charging your laptop with up to 60W of power through the Thunderbolt 3.0 connection. Thus, even laptops rated 80W or 85W can still charge through the dock, albeit at a slower speed.

4K Video Output

The ALOGIC Thunderbolt dock provides stunning 4K video output. It allows dual 4K Display output, enabling you to extend or mirror your computer's content on two monitors simultaneously. Experience high-resolution visuals in your workstation for maximized productivity.

HDMI

This versatile dock includes an HDMI port, allowing you to connect to television screens, video projectors, or other display devices that use an HDMI cable. Accomplish more with enhanced versatility in your workplace.

Dual 4K Display

Enhance your productivity with the dual 4K display. Connect two monitors simultaneously to stream independent content on each, or duplicate your computer's screen to both. Enjoy the benefits of a larger workspace for your presentations, video conferences, and multi-tasking needs.

The maximum resolution supported with a dual-display is 3840 x 2160@60Hz from both ports. The Thunderbolt 3.0 port is Compatible with USB-C video adapters and cables such as DisplayPort, HDMI, VGA, etc.

Package includes
