ALOGIC Clarity 5K Touch - Silver

The World's First 5K Touchscreen. The Clarity 5K Touch Monitor redefines creative workspaces, combining breathtaking visuals, intuitive touch technology, and unparalleled functionality. Designed for digital artists and professionals, this monitor offers an immersive experience that revolutionizes how you create, collaborate, and innovate.

- 5K Resolution for unmatched clarity
- 77% more pixels & 33% more workspace than 4K
- Factory-calibrated colour accuracy
- Touchscreen & stylus compatibility
- 65W USB-C power delivery
- Ergonomic & flexible design

Breathtaking 5K Picture
Step beyond 4K with Clarity's stunning 5120x2880 resolution, delivering 33% more workspace than a standard 4K monitor. This expansive digital canvas doubles your working area compared to a 27" 2K monitor while maintaining the same desk footprint. Razor-sharp text and brilliant details reduce eye strain, making Clarity 5K a true upgrade for your productivity and creativity.

A Revelation in Colour
Designed by creatives, for creatives, the Clarity 5K Touch delivers true-to-life colors that translate seamlessly whether you're editing photos for print, color grading footage, or creating digital art. With 100% sRGB, 99% Adobe RGB, and 99% DCI-P3 coverage, its factory-calibrated display ensures you can rely on the colors you're sending to clients, while its competition-beating Average Delta E of less than 1 reflects the authenticity of its colors.

Tap into 5K Touch
Clarity 5K is the only touchscreen monitor of its kind compatible with macOS and Windows. Its multitouch functionality eliminates barriers between you and your ideas, offering customizable gestures to streamline your workflow.

Empower Your Creativity
The Clarity 5K Touch is the shortcut to your digital studio, connecting your laptop to 65W charging, two USB accessories, and audio all over a single USB-C cable. This empowers you to connect external hard drives, wired headphones, mice, keyboards, and other tools essential for your creative process without cable clutter.

Ergonomic Design for Endless Comfort
Clarity's versatile stand lets you adjust height, tilt, pivot, swivel, and rotate for hours of comfortable use. Compatible with a 100x100 VESA mount, it adapts seamlessly to multi-monitor setups or compact studios.

Built for Digital Artists
With the Clarity Fold Stand, you can transform your workspace into an ergonomic drawing station in seconds. The sturdy base rotates 360°, allowing you to find the perfect angle or share your work effortlessly. Use the Clarity Active Stylus with 4096 Levels of Pressure Sensitivity & Low Latency Performance. Sketch, paint, or annotate naturally with high fidelity on the 5120x2880 resolution display.
