KeyBudz Sync+ Series Watch Strap and AirPod Dock for 44-49mm Apple Watch - Tidal Blue

KeyBudz Sync+ Series is a premium FKM watch strap for Apple Watch (44–49mm) with a built-in, removable AirPods dock. It's designed for daily wear and demanding conditions, giving you a secure, easy-to-reach place for your AirPods without adding bulk or getting in the way.

- Rugged FKM strap built for tough conditions
- Built-in AirPods dock for secure, easy access
- Comfortable, skin-friendly materials for all-day wear
- Secure, precise fit across Apple Watch 44–49mm
- Durable finishes that resist wear and color fading

Rugged FKM strap built for tough conditions
The Sync+ Series strap is made from FKM, a fluoroelastomer chosen for its durability in real-world use. It's built to handle sweat, water, and changing weather, and it's engineered to stay strong under stress without compromising comfort on the wrist.

Built-in AirPods dock for secure, easy access
Sync+ integrates an AirPods dock directly into the strap, so your AirPods have a consistent home that's easy to reach. It's designed to reduce the hassle of pockets and the risk of drops, while keeping your essentials with you during movement, travel, and outdoor use.

Comfortable, skin-friendly materials for all-day wear
The dock uses a premium soft-touch silicone designed to hold your AirPods securely while staying comfortable against the skin. Combined with the flexible FKM strap, the system is built for long wear, whether you're active outdoors or moving through a busy day.

Secure, precise fit across Apple Watch 44–49mm
The strap is designed to match the profile of Apple Watch and Apple Watch Ultra, with stainless steel pins that keep the fit stable and secure. It's compatible across Apple Watch sizes 44mm through 49mm, giving you a seamless fit without feeling oversized.

Durable finishes that resist wear and color fading
Sync+ Series is engineered to resist color fading and maintain its look over time. From UV exposure to sweat and rugged use, the materials are selected to help the strap stay consistent in appearance and performance, even with frequent outdoor wear.
