Full-grain leather with hand-finished details
Journal for MacBook Pro 15-inch is made from genuine full-grain leather sourced from New Zealand. The leather undergoes an eco-friendly vegetable tanning process and has a subtle waxed sheen that develops character over time. Hand-finished details give the case a refined, professional appearance.

Slim, lightweight protection for MacBook Pro 15-inch (38.1 cm)
Designed specifically for the 15-inch (38.1 cm) MacBook Pro with Thunderbolt 3 (USB-C), Journal has hardback covers to protect the front and back of your laptop. A crush-resistant spine helps absorb everyday bumps and withstand pressure when carried in a bag. The case weighs approximately 383 grams and has a slim profile to keep added bulk to a minimum.

Versatile design: semi-attached cover or slip-in sleeve
Keep your MacBook inside Journal and open it like a book to work with the case in place, or use it as a slip-in sleeve and remove your laptop when you reach your desk. The two-in-one design lets you choose how you work while protecting your MacBook in transit.

Hidden interior pocket for documents and flat essentials
An integrated interior pocket holds documents, briefs, material swatches and other flat items alongside your MacBook. It keeps your meeting essentials together and can reduce the need for separate folders or sleeves.

Discreet portfolio design that conceals your MacBook
When closed, Journal looks like a leather portfolio rather than a laptop case, helping keep your MacBook out of sight in public spaces. Inside, soft microfiber lining helps protect against nicks and scratches, while reinforced corners and a cushioned spine help absorb impacts.
