UAG Plasma case for AirPods 4 - Black

Urban Armor Gear Plasma case for AirPods 4 with shock protection is built for reliable everyday protection without adding unnecessary bulk. With a secure latch, reinforced corners and support for magnetic and wireless charging, it keeps your AirPods protected, easy to carry and ready to use wherever you go.

- Secure latch closure for added protection on the move
- Durable PC and TPU construction with enhanced corner protection
- Compatible with magnetic charging and most wireless chargers
- Two-piece design with adhesive tape for a secure fit
- Detachable carabiner clip and military drop-test protection

Secure latch closure for added protection on the move
The integrated latch helps keep the AirPods case firmly closed during daily use, in your bag or if dropped by accident. This reduces the risk of the case opening unexpectedly and gives you added peace of mind when carrying your AirPods with you.

Durable PC and TPU construction with enhanced corner protection
Made from a combination of PC and TPU, this case is designed to handle everyday wear while helping protect against drops and impacts. The reinforced corners provide extra defense where it matters most, while the scratch-resistant surface helps keep the case looking clean over time.

Compatible with magnetic charging and most wireless chargers
The built-in magnet module supports magnetic charging for convenient everyday use. The case is also compatible with most third-party wireless chargers, so you can charge your AirPods without removing the case.

Two-piece design with adhesive tape for a secure fit
The two-piece construction is made to fit securely around your AirPods 4 charging case. Adhesive tape helps keep the case sections in place, improving stability and ensuring dependable protection throughout daily use.

Detachable carabiner clip and military drop-test protection
For easier carrying, the included detachable carabiner clip lets you attach the case to a bag or belt loop for quick access. The design also meets military drop-test standards, giving you extra confidence that your AirPods are protected in active everyday environments.

Product specifications:

- Compatible with AirPods 4
- Material: PC and TPU
- Secure latch closure
- Scratch-resistant texture
- Enhanced corner protection
- Built-in magnet module for magnetic charging
- Compatible with most third-party wireless chargers
- Two-piece case construction
