Built for outdoor durability with waterproof FKM
The Sync+ Series strap is made from FKM fluoroelastomer, chosen for its ability to handle demanding use without tearing under stress. It's waterproof and weather-resistant, so it holds up whether you're dealing with sweat, rain, or daily wear. Whether exposed to harsh UV rays, sweat, or rugged terrain, the strap retains its vibrant look and durability.
Integrated AirPods dock keeps your AirPods secure and accessible
The fully removable dock gives your AirPods a secure home right on your wrist, so they're easy to reach when you need them. It's designed to reduce the risk of drops or misplacing your AirPods when you're moving through your day.

Comfortable, skin-friendly materials for all-day wear
The dock is made from a soft-touch silicone designed to hold your AirPods securely while staying comfortable against your skin. The overall design is made to wear easily through long days, workouts, commutes, and travel.

Lightweight, durable hardware built to last
Key components are made from machined 6061 aerospace-grade aluminum to keep the build lightweight while maintaining strength. Stainless steel pins help keep the strap secure on your watch for dependable everyday use.
