Baseus Silicone AirPods case - Red

Baseus silicone case for Apple AirPods with wireless charging and Lightning charging for 1st and 2nd generation
Protect your AirPods and charge them your way. This Baseus silicone case combines a slim, close-fitting design with Qi wireless charging and Lightning charging options. Designed for first and second generation Apple AirPods, it helps protect your charging case from everyday bumps and scratches without adding unnecessary bulk.

- Everyday protection from bumps and scratches
- Slim, lightweight silicone design
- Convenient Qi wireless charging
- Lightning charging when you need it
- Built-in protection against overheating

Everyday protection from bumps and scratches
High-quality silicone cushions your AirPods case against everyday knocks and helps protect it from accidental drops and scratches. The close-fitting cover adds a practical layer of protection for daily use.

Slim, lightweight silicone design
Keep your AirPods easy to carry. The lightweight silicone cover adds minimal bulk and fits closely around your charging case. It is easy to fit and remove, so you can protect your case without making it less convenient to use.

Convenient Qi wireless charging
Charge your AirPods without plugging in a cable. The integrated wireless charging function works with most Qi-compatible wireless chargers, giving you a convenient charging option at home or at your desk.

Lightning charging when you need it
Prefer a wired connection? You can also charge your AirPods using a Lightning cable. With both wired and wireless charging available, you can choose the option that suits your setup.

Built-in protection against overheating
The built-in copper component and charging circuitry are designed to support efficient power transfer and help prevent overheating during charging.
