

Baseus Super thin Silica Gel Case for Airpods is made of environmental friendly silica gel that is soft and safe with no odour. The thickness of the silica case is only 0.8 mm making it very lightweight.

Universal 360°- Omni-directional Protection

This protection gives the case a more comprehensive sense of security.

Fall-proof, earthquake-proof and violence-proof

It is made of elastic silica gel material that can rebound after contact with the ground instantaneously without damaging the Air pods.

Skin-friendly silica gel complies with Food-grade standards

Food-grade silica gel is commonly used for cake moulds, baby nipples etc. It is soft and safe and has no odour.

High elasticity, more flexible

Since it is made of elastic silica gel material, with repeated kneading it will not deform the case and it can also withstand long time usage.

The whole body is washable

You can safely wash the case and restore the original colours if it gets dirty.

New coating can be wiped off

If the case gets any stains you can easily wipe off the stain with a damp cloth.

?You can see the charge without taking off the protector

The thin design of the indicator lamp ensures that the lamp is fixed and you can see the light of the indicator clearly even without removing the protector case.
