Full-grain leather protects your AirPods Charging Case
Crafted from full-grain leather, AirSnap protects your AirPods Charging Case from everyday scratches, scuffs and drops. The leather develops a rich patina over time, adding character with use.

Integrated swivel clip attaches to bags, belt loops or keyrings
The integrated metal swivel clip lets you attach AirSnap to a backpack, handbag, belt loop or keyring. It keeps your AirPods within easy reach on your commute, at the gym or when travelling.

Secure snap closure keeps your AirPods case inside
A strong metal snap closure holds your AirPods Charging Case securely inside AirSnap while you are on the move. Fasten the snap to help prevent accidental opening and protect the case from bumps in your bag or pocket.

Bottom cutout allows charging without removing the cover
A precise cutout provides access to the Lightning charging port, so you can plug in and recharge while your AirPods Charging Case stays inside AirSnap.

Tailored fit for the Apple AirPods Charging Case
Designed specifically for the Apple AirPods Charging Case, AirSnap adds a slim, snug layer of protection without unnecessary bulk. Its seams and openings are positioned so you can open the lid, check the status light and charge as usual.
