Full-grain leather protection for your AirPods Charging Case

AirSnap is crafted from full-grain leather, giving your AirPods a durable outer layer that looks as good as it feels. The snug, tailored fit protects your AirPods Charging Case from everyday scratches, scuffs and drops, while the premium leather develops a rich patina over time. This is protection that doesn't hide your tech, it elevates it.

Built-in swivel clip to attach to bags, belts or keyrings

With the integrated metal swivel clip, your AirPods are always exactly where you need them. Hook AirSnap to a backpack, handbag, belt loop or keyring to keep your earbuds within easy reach on your commute, at the gym or when traveling. No more digging through bags or worrying about misplacing your case.

Secure snap closure keeps AirPods safely inside

A strong metal snap closure keeps your AirPods case firmly in place, even when you are on the move. Slip the Charging Case into AirSnap, fasten the snap and your earbuds stay protected inside, shielded from accidental openings and bumps in your bag or pocket.

Accessible bottom cutout for charging while in the case

You never have to remove your AirPods to power up. A precise bottom cutout gives you full access to the Lightning charging port, so you can plug in and recharge with the Charging Case still safely wrapped in leather. It is convenience designed into every detail.

Tailored design made specifically for Apple AirPods Charging Case

AirSnap is purpose-built for the Apple AirPods Charging Case, giving you a slim, form-fitting layer of protection that does not add unnecessary bulk. Every seam and opening is positioned for easy access, allowing you to flip open the lid, check the status light and charge as usual, with the bonus of premium protection and style.
