- Trusted Security with HydroLock
- Dual-layer Protection
- Complete Access and Compatibility
- Advanced Impact Resistance
- Eco-Friendly Build

Trusted Security with HydroLock

Keep your AirPods 3 secure with our KeyBudz Element Series case, featuring the innovative HydroLock system. This reliable locking mechanism offers IP68 waterproof protection, protecting your device from water, dust, and the elements. Know that no matter where your adventures take you, your AirPods are protected under any condition.

Dual-layer Protection

Fortify your AirPods 3 with the Element Series case's two-tiered defense structure. An internal layer of shock-absorbing material cradles your earbuds softly while the external hard polycarbonate shell fends off external threats. This duo works in harmony to provide unbeatable protection against drops and harsh weather, ultimately extending the life of your beloved AirPods.

Complete Access and Compatibility

The Element Series case for AirPods 3 doesn't just protect; it enhances usability. Easy access to the charging and pairing buttons means your AirPods are always ready for action. Moreover, the case is fully compatible with wireless and wired charging options, allowing for seamless power-ups without ever removing the case.

Advanced Impact Resistance

Engineered with a tough polycarbonate exterior, the KeyBudz Element Series case is your AirPods' first line of defence against impacts. In the event of a drop, the polycarbonate material is specifically designed to absorb and dissipate the force, significantly lessening the likelihood of damage to your earbuds. Go about your day confidently, knowing that your AirPods 3 can withstand the knocks and shocks of everyday life.

Eco-Friendly Build

Being conscious of the environment, the Element Series case for AirPods 3 is crafted with 70% recycled plastic. Not only are you receiving top-notch protection for your device, but you're also positively impacting the planet. Adding a robust aluminium carabiner rounds out the design, offering an easy attachment point for secure transport and storage of your AirPods.
