Twelve South SurfacePad Case with Stand for iPhone 7/8/SE(2) - Black

Enjoy a luxurious, ultra-thin leather folio that protects your iPhone 7, iPhone 8 or iPhone SE (2nd gen) without hiding its sleek design. SurfacePad from Twelve South wraps your iPhone in buttery soft nappa leather, adds handy card storage and instantly transforms into a handsfree stand – all in an incredibly slim, pocket-friendly profile.

- Premium nappa leather that feels soft, warm and luxurious
- Ultra-thin, featherlight folio that protects front and back
- Built?in card slots for everyday essentials
- Integrated handsfree stand for watching and video calls
- Soft microfiber lining for gentle, scratch-free protection

Premium nappa leather that feels soft, warm and luxurious
SurfacePad is crafted from high-quality, buttery soft nappa leather that looks and feels exceptional from day one. Unlike hard plastic shells or cold, slippery metal cases, this real leather cover gives your iPhone a warm, secure feel in your hand. The natural leather ages beautifully over time, developing a unique patina that reflects your daily use while keeping your iPhone looking premium and refined.

Ultra-thin, featherlight folio that protects front and back
Designed to be razor thin and incredibly light, SurfacePad adds protection without bulk. The folio design shields both the front and back of your iPhone from everyday bumps and contact with items in your pocket or bag, such as keys and coins, while still slipping easily into your pocket. You get everyday protection and a premium feel without sacrificing the slim, elegant profile of your iPhone.

Built?in card slots for everyday essentials
Inside the front cover you will find two discreet card slots, perfect for carrying your most important cards, such as an ID, bank card or transit card. This turns your iPhone into a minimalist wallet, reducing what you need to carry when you go out. The cards are held securely inside the cover, keeping your screen protected while your essentials are always within easy reach.

Integrated handsfree stand for watching and video calls
Fold the back of the SurfacePad and your ultra-thin case instantly becomes a stable handsfree stand. This makes it ideal for watching videos, browsing, taking video calls or following recipes without needing to hold your phone. The stand function is especially useful with the larger Retina HD display, letting you enjoy content comfortably wherever you are.

Soft microfiber lining for gentle, scratch-free protection
The inside of the SurfacePad is lined with soft microfiber that cradles your iPhone and helps prevent scratches and scuffs on its surface. Working together with the supple leather exterior, the microfiber lining offers a protective, cushioned layer on both sides of your device. Your iPhone stays protected from everyday wear while remaining slim, stylish and ready to use.

Package includes
