Twelve South SurfacePad for iPhone 11 Pro - Blue

Twelve South SurfacePad for iPhone 11 Pro is an ultra-thin wallet case made from full-grain leather, with two card slots and a built-in stand. It protects the front and back of your phone while leaving its design visible.

- Ultra-slim full-grain leather cover protects the front and back
- Built-in stand for hands-free viewing and video calls
- Two card slots for everyday essentials
- Automatic screen wake and sleep when opening and closing the cover, where supported
- Compatible with Qi wireless charging

Ultra-slim full-grain leather cover protects the front and back
Designed specifically for iPhone 11 Pro, SurfacePad offers lightweight protection against everyday scratches and minor bumps from contact with desks, countertops and keys in your bag. The full-grain leather develops a natural patina over time, giving each cover its own character. Its slim profile keeps your phone easy to slip into a pocket without hiding its design.

Built-in stand for hands-free viewing and video calls
Fold the back of the cover to support your iPhone 11 Pro in landscape mode. The integrated stand keeps your hands free while you watch films, follow recipes, make FaceTime calls or view presentations.

Two card slots for everyday essentials
Two precision-cut slots inside the front cover hold essentials such as your ID and a bank card. Use them alongside Apple Wallet to keep supported cards and tickets digitally on your iPhone, with physical cards close at hand. When you want to travel light, SurfacePad offers a compact alternative to a separate wallet.

Automatic screen wake and sleep when opening and closing the cover
Where supported by compatible iPhone features, opening the front cover automatically wakes the screen and closing it puts the screen to sleep. This makes checking your phone easier and can help conserve battery life.

Compatible with Qi wireless charging
SurfacePad works with compatible Qi wireless charging pads, so you can charge your iPhone 11 Pro without removing the cover or giving up its protection, card storage or stand functionality.
