myFirst Insta Lux Film - White

myFirst Insta Lux Film lets children and families print their favourite photos directly from the myFirst Camera Insta Lux. The film uses dye-sublimation technology to create sharp, colourful images with a protective laminated finish. Prints are water-resistant and resistant to fingerprints, helping them stay looking their best when shared, displayed or stored in an album.

- 20 full-colour prints per pack
- Two cartridges with 10 prints each
- Dye-sublimation technology for sharp, vibrant colours
- Laminated, water-resistant and fingerprint-resistant finish
- Designed exclusively for the myFirst Camera Insta Lux

Vibrant Dye-Sublimation Prints
The film uses a multi-layer dye-sublimation process to reproduce photographs with clear details and vibrant colours. Each photo receives a protective coating that helps preserve the finished print.

Protected for Everyday Memories
The laminated photographs are water-resistant and resistant to fingerprints. This makes them practical for children to handle, exchange with friends or use in scrapbooks and creative projects.

Easy Cartridge Loading
Each self-contained cartridge provides 10 prints. The convenient cartridge design makes refilling the camera simple, with no loose sheets or separate ink to install.

Classic Photos with a White Border
Each print measures 82 × 54 mm and has a 72 × 54 mm image area. The white border gives photographs a classic appearance and provides space for a date, caption or short message.

Package Includes

- 2 myFirst Insta Lux Film cartridges
- 10 full-colour prints per cartridge
- 20 full-colour prints in total
