myFirst Fone S3 S3 Plus Charging Cable

Keep your myFirst Fone powered up and ready with a magnetic charging cable that snaps into place for quick, reliable charging and effortless data transfer. Designed for everyday durability and easy use, it is the perfect companion for home, school, or travel.

- Magnetic charging for simple, secure attachment
- Supports both charging and data transfer
- 0.75 m cable length for flexible, convenient use
- USB-A connector for wide device compatibility
- Built for durability and everyday use

Magnetic charging for simple, secure attachment
The magnetic connector aligns and attaches instantly, ensuring a solid connection every time. No fumbling with ports or pins—just snap on and power up. The secure fit helps prevent accidental disconnects while charging.

Supports both charging and data transfer
Beyond fast, reliable charging, this cable also enables data transfer to and from your Fone. Back up photos, update settings, and manage content with one cable for maximum convenience.

0.75 m cable length for flexible, convenient use
With a 0.75 meter length, you get the freedom to charge from a desk, bedside, or power bank without being tethered to the plug. It is long enough for everyday setups yet compact for easy packing.

USB-A connector for wide device compatibility
The USB-A plug works with common chargers, laptops, desktops, and power banks, so you can charge and sync from the ports you already have—at home, in class, or on the go.

Built for durability and everyday use
Made to withstand frequent attachment and movement, the cable is designed for daily reliability. Its robust construction helps resist wear from bends and pulls, day after day.
