

PLAUD AI Pro is made for users who record regularly and need more time, more flexibility and full access to PLAUD's AI features. With 1200 minutes every month, it gives you reliable capacity for meetings, interviews, lectures and daily notes, while helping you turn recordings into clear, usable content.

- 1200 minutes of recording time every month
- Full access to PLAUD Intelligence
- Summaries, mind maps and templates
- Support for multiple languages and speakers
- Secure handling of your recordings

1200 minutes of recording time every month

With 1200 minutes included each month, AI Pro gives you the recording capacity needed for a busy schedule. It is well suited for regular meetings, longer interviews, lectures and recurring work sessions where the free tier may not be enough.

Full access to PLAUD Intelligence

AI Pro gives you access to PLAUD's full AI feature set for turning recorded audio into structured text and useful insights. Transcriptions, summaries and workflows help you spend less time processing information and more time acting on it.

Summaries, mind maps and templates

Create concise summaries from your recordings, organise ideas visually with mind maps and use templates to structure different types of content. This makes it easier to review key points, share outcomes and keep work organised.

Support for multiple languages and speakers

PLAUD AI Pro supports multiple languages and speaker recognition, making it suitable for international meetings, interviews and group discussions. It helps keep conversations clear and easier to follow, even when several people are involved.

Secure handling of your recordings

Your recordings and generated content are handled according to international security standards. This gives you a dependable solution for everyday professional use where privacy and responsible data handling matter.
