Baseus Whirlwind Wireless Fast Charger with Built-in Fan and Qi Support for Smartphones - Black

Keep your smartphone charged without plugging in a cable. The Baseus Whirlwind wireless Qi fast charger for smartphones with built-in fan and 10 W charging combines convenient wireless power with active cooling. Its compact black design fits neatly on your desk or bedside table, ready whenever you need a charge.

- Automatic power adjustment for your device
- Built-in fan for active cooling
- Wireless charging through cases up to 0.8 mm
- Automatic power-off when charging is complete
- Up to 10 W wireless charging with QC 3.0 support

Automatic power adjustment for your device
Place your Qi-compatible smartphone on the charger and let automatic device recognition handle the power settings. The charger adjusts its output to suit your phone, providing convenient charging without manual adjustments.

Built-in fan for active cooling
The integrated fan helps dissipate heat while your phone charges. Active cooling helps maintain a stable charging temperature and supports consistent performance during fast charging.

Wireless charging through cases up to 0.8 mm
Leave your slim case on when it is time to recharge. The Baseus Whirlwind supports charging through cases up to 0.8 mm thick, making it easy to set your phone down and carry on with your day.

Automatic power-off when charging is complete
The charger automatically stops delivering power when your phone is fully charged. This adds reassurance when charging overnight or leaving your phone on the charging pad while you work.

Up to 10 W wireless charging with QC 3.0 support
Connect the charger to a compatible Quick Charge 3.0 power adapter to enable wireless charging at up to 10 W. Charging speed depends on your phone and power adapter. The charger supports Qi-enabled smartphones, including compatible iPhone and Samsung Galaxy models.

Package includes

- 1 x Baseus Whirlwind wireless fast charger
