- Advanced AI-powered recording and transcription in 112+ languages with speaker diarization and industry-leading AI models
- Ultra-compact design with versatile carrying options
- 20 hours of continuous recording with 40 days of standby
- Enterprise-grade security with end-to-end encryption
- Seamless cloud integration and access with free app Plaud, plus Plaud Web & Plaud Desktop for online meeting
- Certified privacy and security

Advanced AI-powered recording and transcription
Experience the power of intelligent voice recording with dual MEMS microphones and sophisticated AI technology. A tactile record button gives you reliable, instant control - long press to start recording instantly, and short press to mark key moments as they happen with Press to Highlight. Choose from industry-leading language models like GPT-5.5, Claude Sonnet 4.6, Gemini 3.1 Pro, or even more powerful models as they launch. NotePin S transcribes your recordings in over 112 languages with automatic speech recognition, speaker diarization, customized vocabulary, and automatic formatting for crystal clear, readable transcripts. Turn conversations into action with 10,000+ professional templates and AI-powered analysis - generate multidimensional, role-specific summaries that transform a single meeting, interview, or spontaneous idea into structured notes tailored to every stakeholder.

Ultra-compact design with versatile carrying options
At a lean 17.4 grams (without magnetic pin), NotePin S is designed for all-day use without getting in the way. It keeps the same ultra-compact shape (51 × 21 × 11 mm) and adapts to your lifestyle: wear it as a necklace, bracelet, clip, or pin - ready for meetings, lectures, interviews, or creative moments whenever inspiration strikes.

20 hours of continuous recording
Never miss an important detail with NotePin S impressive battery life. Enjoy up to 20 hours of continuous recording and up to 40 days of standby time, now with a larger 320 mAh battery. The 64 GB (approx. 480 hours of audio) local storage ensures plenty of space for your recordings, while intelligent audio enhancement helps keep speech clear and usable even in real-world environments.

Business-class security
Your privacy is paramount with Plaud NotePin S. Every recording is protected by end-to-end encryption and handled with an enterprise-grade security mindset - so you can focus on your content while your data remains protected.

Seamless integration and access with the free Plaud app
Access your recordings, transcripts, and summaries effortlessly via the Plaud app, plus Plaud Web and Plaud Desktop - including the ability to record and transcribe online meetings on platforms like Zoom and Microsoft Teams. With unlimited secure cloud storage and cross-platform compatibility, your AI assistant is always at your fingertips - ready to be searched, shared, exported and analyzed. The free Starter plan includes 300 minutes per month of AI transcription, with upgrades available if you need more minutes and advanced features

Certified privacy and security
NotePin S meets high privacy and security standards, demonstrating compliance with ISO 27001, ISO 27701, GDPR, SOC 2, HIPAA ,and EN 18031. This means it is built for professional applications where sensitive calls and notes require strong end-to-end protection measures.

How AI transcription minutes work
Every Plaud device includes the free Starter plan: **300 minutes** of AI transcription per month, no subscription required.
