Baseus Time evaporative cooler - Blue/White

Baseus Time evaporative cooler with USB power, 320 ml water tank and stepless speed control for home and office
Keep your personal space comfortable with the Baseus Time evaporative cooler. Combining water assisted cooling with adjustable airflow, this compact USB powered cooler brings a refreshing breeze to your desk at home or in the office. Its retro design, easy filling and stepless controls make it simple to use every day.

- Water assisted cooling for your personal space
- Stepless speed control for precise adjustment
- Easy filling with a 320 ml water tank
- Adjustable grille for three direction airflow
- USB power for flexible everyday use

Water assisted cooling for your personal space
The Baseus Time uses water from its tank to provide a cooling breeze while adding moisture to the surrounding air. Designed for personal cooling, it helps make your immediate space more comfortable on warm days. Add ice cubes to the tank for an extra cooling effect.

Stepless speed control for precise adjustment
Set the airflow to suit your comfort with the rotary control. Stepless adjustment lets you move smoothly between lower and higher speeds rather than choosing from fixed settings, giving you more control over the breeze at your desk.

Easy filling with a 320 ml water tank
Open the top cover to add water directly to the 320 ml tank. The accessible opening makes refilling straightforward and lets you add ice cubes without a complicated setup.

Adjustable grille for three direction airflow
Direct the breeze where you need it with the movable transverse grille. Its three direction airflow adjustment helps you position the cooling air around your workspace or seating area.

USB power for flexible everyday use
Power the cooler through a compatible USB charger, computer, power bank or vehicle USB port. USB connectivity makes it convenient to use wherever a suitable power source is available, without relying on a dedicated wall socket connection.

Product specifications

- Brand: Baseus
- Model: Time
- Product type: Evaporative air cooler
- Material: ABS
- Water tank capacity: 320 ml
- Fan speed: 3000 rpm
- Speed control: Stepless rotary adjustment
- Power: 4.2 W
- Input: 5 V DC, 0.84 A
- Power supply: USB
- Airflow direction: Adjustable grille with three direction air supply
