Ultra-thin genuine leather cover for iPhone XR
SurfacePad covers the front and back of your iPhone XR in lightweight genuine leather. It helps protect against everyday contact with objects such as keys in your pocket or the edge of a countertop, while preserving your phone’s slim shape and comfortable feel.

Two built-in card slots for an ID and a bank card
Two discreet slots inside the front cover hold an ID and a bank card securely when the cover is closed. Together with Apple Pay, they keep your everyday essentials close at hand and may let you leave your wallet at home.

Integrated stand for hands-free viewing and FaceTime
Flex the back cover to turn SurfacePad into a viewing stand. It holds your iPhone XR in landscape orientation for hands-free video viewing, browsing or FaceTime calls at home, at work or while travelling.

Automatic wake and sleep functionality
SurfacePad automatically wakes your iPhone XR screen when you open the cover and puts it to sleep when you close it. This helps conserve battery life and gives you quick access to notifications and calls.

Secure, residue-free adhesive attachment
Instead of using a plastic shell, SurfacePad attaches directly to the back of your iPhone XR with a secure adhesive. It stays firmly attached during everyday use and peels away easily for removal or repositioning, without leaving sticky residue or marks on your phone.
