usbepower

Usbepower Rock Dual USB-A Charger - Red

Charge two devices at once with a compact wall charger that also holds your phone while it charges. Usbepower Rock combines automatic power distribution, a practical device dock and a travel-friendly design for everyday use at home or on the go.

- Charge two devices at the same time
- Automatic power distribution
- Compact design for travel
- Built-in dock to hold your device
- SGS-certified charging

Charge two devices at the same time
Keep your phone and tablet charging together without needing two wall chargers. Two USB-A ports let you charge compatible Apple and Android devices from a single power outlet.

Automatic power distribution
The dynamic charging system detects connected devices and adjusts power delivery accordingly. Its chipset manages the available power, sharing it between the two ports as needed.

Compact design for travel
A pocket-sized design makes Rock easy to take between home, work and your next destination. Support for AC 100–240 V input makes it suitable for use with different mains voltages when paired with the appropriate plug adapter.

Built-in dock to hold your device
Use the wall charger as a dock to support your device while it charges. This two-in-one design combines charging and a convenient place to rest your phone.

SGS-certified charging
Rock is certified by SGS and combines quality components with integrated power management for dependable everyday charging.

Package Includes

- 1 x Usbepower Rock dual USB-A wall charger
