Keeps small cables neatly bundled
Stop the tangle before it starts. CableClip secures slim cords into a compact, tidy bundle so they don't knot in your drawer, snag in your bag, or clutter your desk. Your most-used cables stay clean, organized, and ready when you are.

Sets the right cable length quickly
Excess cord becomes a neat coil in seconds. Wrap, clip, and enjoy just the right length for a cleaner workspace, safer surfaces, and hassle-free charging—no more trailing wires.

Ideal for earbuds, charger cords, and small data cables
Purpose-built for thinner cables, the Small size is perfect for earbuds, phone chargers, lightweight USB and data cables, and other slim cords you use every day.

Compact and travel-ready for home, office, or on-the-go use
Wherever you work or wander, CableClip keeps your essentials streamlined. It slips easily into drawers, backpacks, and organizers so your cables stay orderly from commute to countertop.

Reusable clips in green and gray for easy color-coding
Use color to keep things straight. The green and gray clips help you spot and separate different devices or family members' cords, and the durable design is made to reuse again and again.
