Pipetto iPhone 12 Mini Case with Magnetic Mount - Dusty pink

Pipetto Magnetic Leather Case with Magnetic Mount for iPhone 12 Mini – 2-in-1 magnetic mount case and stand for iPhone 12 Mini combines premium genuine leather, beautiful minimalist design and clever hidden functionality. Keep your iPhone 12 Mini protected and always perfectly placed, whether you are driving, FaceTiming, watching videos or charging wirelessly at your desk or bedside.

- Premium genuine leather with minimalist, designer look
- Integrated magnetic plate for seamless use with the included mount
- 2-in-1 magnetic mount acts as car vent mount, kickstand and wall mount
- Fully compatible with wireless and wired charging
- Includes spare accessories for long-term, reliable use

Premium genuine leather with minimalist, designer look
This case is made for iPhone users who care about both protection and style. Crafted from premium genuine leather, it offers a refined, tactile finish that feels as good as it looks. The slim, minimalist profile keeps your iPhone 12 Mini sleek in your hand or pocket, while adding a touch of luxury to everyday use. It is designed to enhance your phone, not hide it behind a bulky cover.

Integrated magnetic plate for seamless use with the included mount
Inside the case, a custom-engineered lightweight metal plate is discreetly built into the design. This hidden magnetic layer is the secret to the case's clever functionality: it allows your iPhone 12 Mini to snap securely onto the included magnetic mount without adding bulk or spoiling the look. No ugly external plates or stickers are needed, and you keep the clean, minimalist aesthetic of your device.

2-in-1 magnetic mount acts as car vent mount, kickstand and wall mount
The included 2-in-1 magnetic mount system unlocks entirely new ways to use your iPhone. With three interchangeable parts, it transforms into a car vent mount for safe, hands-free sat-nav, a kickstand for watching videos or making FaceTime calls, and a wall or nightstand mount to keep your phone visible and accessible. Whether you are on the road, at your desk or beside your bed, your iPhone can be positioned perfectly with a simple magnetic click.

Fully compatible with wireless and wired charging
Unlike many magnetic cases, this design is fully compatible with both wireless and wired charging. The carefully engineered internal metal plate does not interfere with wireless charging, so you can simply place your iPhone 12 Mini on your wireless charger and power up without removing the case. And when you need a cable, standard wired charging works flawlessly, giving you complete flexibility in how you charge.

Includes spare accessories for long-term, reliable use
To keep your case and mount performing day after day, the set includes an accessory kit with spare parts. Extra metal plates and additional high-quality 3M adhesive stickers are provided so you can reposition or refresh your mounting points over time. Whether you move the mount to a new car, a different wall or another room, you have everything you need included in the box.
