- Garden-Fresh Addition to Meals
- Simple and Easy Indoor Gardening
- Optimal Growth Temperatures
- Harvest According to Your Taste

A Treasure Trove of Vitamins and Antioxidants
The Click and Grow Leaf Mustard is packed with essential vitamins A, K, and C and invaluable flavonoids and dietary fibre. Growing leaf mustard at home means you'll always have access to a nutrient-rich green that can contribute to your overall health and well-being.

Garden-Fresh Addition to Meals
Imagine the delectable crunch and tangy taste of freshly harvested leaf mustard in your next salad or sandwich. Our Click and Grow Refill Pack ensures you enjoy high-quality, home-grown leaf mustard, adding a new dimension to your homemade gourmet foods.

Simple and Easy Indoor Gardening
No green thumb? No problem. The Leaf Mustard Refill 3-Pack promises a seamless gardening experience in your home. Your Click & Grow indoor garden does all the heavy lifting, providing the perfect growth conditions for your leaf mustard plants.

Optimal Growth Temperatures
To guarantee the best growth, leaf mustard should be cultivated in temperatures ranging between 18°C – 24°C (64°F to 72°F). Higher temperatures may inhibit germination, so keeping to this range ensures your leaf mustard grows as it should.

Harvest According to Your Taste
When you grow Click and Grow Leaf Mustard Refill, you can harvest individual leaves after three to four weeks or wait five to six weeks to use the whole pod. The taste intensifies as the plant matures, so harvest early for a milder flavour or later for a more robust spice.

Package includes
3 x Leaf Mustard plant pods
