Click & Grow Plant Pods 3-Pack - Peppermint

Experience the joy of cultivating your peppermint with the Click & Grow Smart Garden Refill 3-pack. This indispensable kitchen herb, renowned for its refreshing flavour and vibrant aroma, can now be grown effortlessly in your home. With seamless integration into the Click & Grow ecosystem, these peppermint plant pods make bringing the garden-to-plate experience to your kitchen easy, ensuring you always have fresh herbs at hand for your culinary creations.

- Versatile and Popular Herb
- Mint Condition Growth
- Hassle-Free Harvesting
- Minimal Monitoring Required
- Ideal Climate Conditions

Versatile and Popular Herb
The peppermint from your Click & Grow refill is more than just a plant; it's a multipurpose staple that fits beautifully into many dishes, beverages, and even home remedies. Its vibrant leaves are rich in Vitamin C, manganese, and copper; they also bring freshness to any concoction they grace, making them an essential addition to every household.

Mint Condition Growth
Peppermint has a fascinating growth journey that initially may seem slow, but once established, this herb vigorously proliferates, producing an abundance of sprouts. Keeping it in prime condition is accessible with your Click & Grow Smart Garden; sit back and watch the peppermint transform into a lush, abundant herb.

Hassle-Free Harvesting
After just 4-5 weeks of planting, your peppermint will be ready for its first trim. Harvesting the tips encourages fuller growth, meaning more mint to enjoy. The growth cycle continues, allowing for multiple harvests from just one Click & Grow peppermint pod.

Minimal Monitoring Required
Keep your garden tools at bay because plant care is almost non-existent with Click & Grow peppermint. Peppermint grows well under just one lamp arm, so as long as you watch out for increasing stems to prevent them from touching the lamp, you're all set for a successful growth experience.

Ideal Climate Conditions
Optimized for growth in your Click & Grow Smart Garden, peppermint thrives in a temperature range of 18°C to 30°C, ensuring that it grows healthy and strong right in the comfort of your home without needing a green thumb.

Package includes

- 3 x peppermint plant pods compatible with the Click & Grow Smart Garden system.
