Iotty Smart Switch Faceplate 1-gang - Beige

Give your walls a refined finish with the Iotty Smart Switch single-gang front plate. Designed in Italy and made from tempered glass, it combines a clean, modern appearance with a choice of five colours to complement your interior.

This product is the front plate only. An Iotty Smart Switch Base is required for a functioning switch and is not included.

- Designed in Italy
- High-quality tempered glass
- Single-gang design
- Interchangeable front plate
- Available in five colours

Designed in Italy
Bring considered design to your walls. The Italian-designed front plate offers a clean, elegant look with attention to detail, making it a natural fit for modern interiors.

High-quality tempered glass
The tempered glass front plate gives your switch a refined finish. Its quality material adds a distinctive touch without distracting from the rest of your room.

Single-gang design
This front plate is designed for a single-gang Iotty Smart Switch Base. Use it to complete your switch with a coordinated glass finish. The front plate alone does not function as a switch.

Interchangeable front plate
Change the appearance of your Iotty Smart Switch with an interchangeable front plate. Choose a different finish when you update your room or want a new look.

Available in five colours
Choose from white, black, blue, grey or tan. Match the front plate to your walls for a subtle finish, or select a contrasting colour to make the switch stand out.
