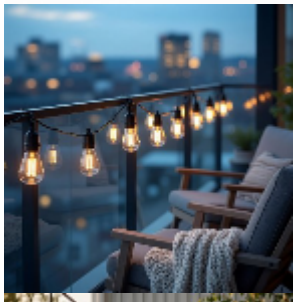
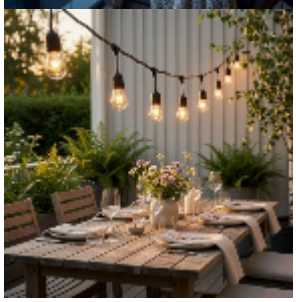
Lite Bulb Moments Smart Light Chain – Vintage Edison





Bring warm, adjustable light to your patio, balcony or garden with Lite Bulb Moments smart string lights Vintage Edison. Designed with a classic Edison look and modern smart control, the 10 metre light chain connects to the Tuya app and works with Amazon Alexa and Google Assistant, giving you simple control over brightness, lighting effects and atmosphere from your phone or by voice.

- Vintage Edison design for warm outdoor ambience
- Smart control with the Tuya app
- Works with Amazon Alexa and Google Assistant
- Dimmable LED lighting with dynamic modes and music sync
- Weather-resistant construction for indoor and outdoor use

Vintage Edison design for warm outdoor ambience
The Lite Bulb Moments smart string lights combine a timeless Edison-style bulb design with a soft warm and white light ambience. The result is a comfortable, decorative lighting solution that suits patios, terraces, balconies, gardens and covered outdoor dining areas. With 10 LED bulbs across a 10 metre chain, it creates an inviting setting without overpowering the space.

Smart control with the Tuya app
Connect the string lights to your 2.4 GHz WiFi network and control them directly from the Tuya app on your smartphone. Adjust the lighting from wherever you are, set the right mood before guests arrive, or switch the lights off without going outside. The app is available for both iOS and Android devices.

Works with Amazon Alexa and Google Assistant
The smart string lights are compatible with Amazon Alexa and Google Assistant, allowing you to control your patio lighting with simple voice commands. Turn the lights on or off, adjust brightness or change the atmosphere hands-free when your phone is not nearby.

Dimmable LED lighting with dynamic modes and music sync
The built-in Sanan-e LED chips provide reliable illumination with low energy use. The lights are dimmable and support dynamic lighting effects, so you can choose a steady warm glow for relaxed evenings or more active lighting for social occasions. Music sync adds another layer of atmosphere when entertaining outdoors.

Weather-resistant construction for indoor and outdoor use
Designed for use throughout the seasons, the string lights are made for both indoor and outdoor environments. The string lights have an IP65 waterproof rating, while the socket and adapter are IP44 rated. This makes the set suitable for outdoor placement in changing weather conditions when installed according to the user manual.

Package includes

- Smart light chain with 10 LED bulbs, 10 m
- IP65 controller
- IP44 adapter
- Drawstring storage bag
- User manual
