Lite Bulb Moments Smart Light Chain

Create a flexible lighting setup for everyday ambience, gatherings and seasonal decoration with Lite Bulb Moments smart string lights. The 14 m light chain has 15 LED globe bulbs, over 16 million color options, music sync and smart control through the TUYA app, Google Assistant and Amazon Alexa. Suitable for both indoor and outdoor use, it gives you reliable decorative lighting with simple control from your phone or by voice.

- Smart 14 m light chain with 15 LED bulbs
- 16 million colors and dimmable dynamic lighting
- Music sync with built-in microphone
- App and voice control with TUYA, Google and Alexa
- IP65-rated for indoor and outdoor use

Smart 14 m light chain with 15 LED bulbs
The light chain is 14 meters long and includes 15 LED globe bulbs with a 5 cm diameter. With 1 meter between each light source and a 3 meter cable from the plug to the first LED, it is easy to place around a parasol, along a terrace, in a living room or as part of seasonal decoration.

16 million colors and dimmable dynamic lighting
Choose from more than 16 million colors to match the setting, mood or occasion. The lights are dimmable and support dynamic light effects, allowing you to create anything from soft background lighting to colorful decorative scenes. Timers and adjustments can be managed directly in the TUYA app.

Music sync with built-in microphone
The built-in microphone lets the string lights react to music and sound. The lights can change color or flash in rhythm with the music, making them suitable for parties, celebrations and relaxed evenings where lighting helps set the atmosphere.

App and voice control with TUYA, Google and Alexa
Control the lights from the TUYA app or use voice commands through Google Assistant and Amazon Alexa. Adjust brightness, change colors, activate light modes and manage your lighting setup without needing to access the controller manually. The lights connect via a 2.4 GHz network.

IP65-rated for indoor and outdoor use
The string lights and controller are IP65-rated, making them suitable for use in both indoor and outdoor environments. They are designed to withstand rain and changing weather conditions, while the power adapter is IP44-rated. The lights should not be submerged in water.

Package includes

- Smart Light Chain with 5 cm globe bulbs
- IP65 string lights and controller
- IP44 power adapter
- User manual
