140W USB-C Laptop Charging
Experience unparalleled charging speeds with the Ark Pro's 140W USB-C output. Fast charge any USB-C or Thunderbolt laptop, including power-hungry MacBooks Pro and gaming laptops, keeping you productive on the go.

Airplane-Friendly Capacity
Take your power source with you anywhere in the world. The Ark Pro features the maximum battery capacity allowed by IATA regulations for air travel, providing unprecedented power for long-haul flights or extended trips away from power outlets. This 27,600mAh (99.36Wh) capacity meets airline carry-on limits for portable batteries.

Power Up 3 Devices at Once with a combined output of 160W
Maximize your charging efficiency with the Ark Pro's intelligent power management. Simultaneously fast charge your laptop, tablet, and smartphone with a combined 160W output across its two USB-C ports and one USB-A port, ensuring all your devices are ready when you need them. Supports simultaneous charging via 2× USB-C and 1× USB-A ports.

Always-Ready USB-C Cable
Say goodbye to tangled or forgotten cables. The Ark Pro comes with an innovative clip-on (detachable) USB-C cable (~50cm) that securely attaches to the power bank. This clever design doubles as a convenient carrying handle, making it easy to grab and go. The cable is designed to be tangle-resistant and attach securely to the unit.

Smart Display
Stay informed with the Ark Pro's intuitive display. Easily monitor key battery information, including recharge time, current charging speeds, and long-term battery health and temperature. This smart feature helps you plan ahead and maintain optimal performance of your power bank. Displays battery status, charging speeds, temperature, and recharge time in real time.
