ALOGIC EDGE 40" 5K LCD Monitor with 90W PD - Silver

ALOGIC Edge 5K 40 Ultrawide USB-C Monitor – 5K2K clarity, integrated docking, and a beautifully minimalist design that turns your desk into a powerful, clutter-free workspace. With a huge 40-inch class ultrawide display, smooth 100Hz refresh rate, and up to 90 W USB-C laptop charging, it is the heart of a modern home or office setup.

- Expansive 5K2K ultrawide canvas for serious multitasking
- Smooth 100Hz IPS display with 400 nits brightness
- Integrated USB-C docking with up to 90 W laptop charging
- Premium aluminium and glass design with sustainable materials
- Effortless window management, wide compatibility, and secure deployment

Expansive 5K2K ultrawide canvas for serious multitasking
ALOGIC Edge 5K gives you a panoramic 5120 x 2160 resolution that feels like using a four-kilometre-wide desk. With 21:9 aspect ratio and 139 pixels per inch, you can comfortably place two, three or even four apps side by side, all sharp and easy to read. It delivers the benefits of a multi-monitor setup in a single elegant screen, so you can see more timelines, code, spreadsheets, and creative tools at once – and understand more at a glance.

Smooth 100Hz IPS display with 400 nits brightness
With a 100Hz refresh rate, motion on the Edge 5K looks and feels smoother than on standard 60Hz office monitors. Scrolling documents, timelines and web pages is more fluid, while the IPS panel delivers wide 178 degree viewing angles and vivid, accurate colours. The bright 400 nits panel, combined with an anti-glare matte finish, helps cut reflections from windows and office lighting, making long work sessions more comfortable for your eyes.

Integrated USB-C docking with up to 90 W laptop charging
Edge 5K is built to be the heart of your workspace. Connect your laptop with a single USB-C cable and get video, data, audio, Ethernet, and up to 90 W of power delivery to charge your computer. The inbuilt USB-C hub gives you additional USB-C accessory ports, audio out and network connectivity, so you can reduce cable clutter and separate docks or chargers on your desk. With three video input options, it works seamlessly with Apple, Chromebook and Windows laptops.

Premium aluminium and glass design with sustainable materials
Edge 5K is as beautiful as the devices it is designed to complement. Expertly crafted from tempered glass, aluminium and high-quality ABS, its incredibly thin 8 mm frame and minimalist stand look right at home next to your MacBook, Mac Mini, Mac Studio or premium Windows laptop. Available in Silver or Space Grey, it matches modern hardware and elevates any workspace. ALOGIC has also engineered the monitor from around 80 percent recycled aluminium and sustainable glass, reducing plastic use while maximising energy efficiency.

Effortless window management, wide compatibility, and secure deployment
Arranging apps on Edge 5K is simple. On both macOS and Windows, you can snap windows to the left, right or corners of the screen to build layouts that suit your work. The expansive resolution makes complex workflows more intuitive, from editing to coding to financial analysis. Device compatibility stretches across Apple, Chromebook and Microsoft systems, and the built-in Kensington security slot helps keep the monitor secure on hot desks, in shared studios, or in customer-facing environments.

Package includes

- ALOGIC Edge 5K 40 Ultrawide USB-C Monitor - Silver
- DisplayPort cable
- USB-C cable
- Power adapter

Product Specifications

- Brand: ALOGIC
