Seamless Full HD video output
Experience crystal-clear video quality with the ALOGIC Mini DisplayPort to HDMI with Audio Support adapter, which supports resolutions up to 1920 x 1200 or full High Definition 1080p. Watch your favourite films, indulge in gaming, or present on a larger HDMI display without losing picture quality.

Enriched audio support
This adapter isn't just about visual brilliance; it also supports two audio channels to enrich your auditory experience. Whether you're streaming music, participating in video conferences, or watching HD videos, the synchronized audio playback ensures you enjoy both high-definition sights and sounds. Note that audio output for Apple Mac computers is supported only by those released after mid-2010.

User-friendly, no installation required
ALOGIC values your convenience. There is absolutely no need for complex software or drivers—the adapter offers a simple plug-and-play solution. Connect it to your device and HDMI-equipped display, and you're all set with no further hassle or time-consuming installations.

Broad compatibility with Mini DisplayPort devices
The ALOGIC Mini DisplayPort to HDMI with Audio Support adapter boasts versatile compatibility. Whether using an Apple Mac, a Windows Ultrabook, a laptop, or a desktop, this adapter is designed to plug in seamlessly. It's ideal for an extensive range of Mini DisplayPort-enabled devices.

Compact and portable design
With its small stature and lightweight construction, this adapter by ALOGIC is an excellent travel companion that ensures you can connect your Mini DisplayPort source to an HDMI display, no matter where you are. Carrying in your laptop bag, briefcase, or pocket is convenient.
