Skriva.

Skriva Stylus and Case - Blue

Skriva Stylus gives your iPad a precise and natural writing experience for notes, sketches, annotations and everyday creative work. Designed for iPad models from 2018 and later, it combines responsive performance with practical features such as palm rejection, tilt functionality, quick charging and magnetic storage on compatible devices.

- Natural writing and drawing experience
- Palm rejection for comfortable use
- Tilt functionality for creative control
- Long battery life with fast charging
- Practical design with shortcut button and magnetic storage

Natural writing and drawing experience
Skriva Stylus is designed to feel intuitive from the first use. Whether you are writing notes, marking up documents, sketching ideas or working on creative projects, the active stylus technology helps deliver smooth and accurate pen to screen control.

Palm rejection for comfortable use
With palm rejection technology, you can rest your hand naturally on the iPad screen while writing or drawing. This gives you a more relaxed and familiar experience, especially during longer note taking, studying or design sessions.

Tilt functionality for creative control
Tilt functionality allows the stylus to respond to the angle of your hand, giving you better control when sketching, shading or creating detailed lines. It is a practical feature for users who want more flexibility in creative apps.

Long battery life with fast charging
Skriva Stylus offers up to 12 hours of battery life and charges in approximately 15 minutes. It also includes automatic shutdown after 5 minutes of inactivity to help preserve battery when the stylus is not in use.

Practical design with shortcut button and magnetic storage
The simple click button on top makes the stylus easy to activate and use. A built in shortcut button adds convenient control, while magnetic storage allows the stylus to attach to compatible iPad models for easy access and tidy storage.

Package includes
