ALOGIC Ultra USB-A to USB-C Cable for Fast Charging and Data Transfer 3A/480Mbps 1.5m - Silver

ALOGIC Ultra USB-A to USB-C Cable for Fast Charging and Data Transfer is designed to keep your USB-C phones, tablets and laptops powered and synced reliably every day. With a rugged, long-lasting build, fast charging up to 3A and transfer speeds up to 480Mbps, it delivers the perfect balance of durability, performance and convenience in a 1.5m cable that fits easily into any bag or workspace.

- Super ultra-rugged construction for everyday reliability
- Fast charging up to 3A for USB-C phones, tablets and laptops
- High-speed data transfer up to 480Mbps
- Premium double-braided nylon cable with metal alloy housing
- 1.5m cable length for flexible, comfortable use

Super ultra-rugged construction for everyday reliability
The ALOGIC Ultra USB-A to USB-C Cable is engineered to last significantly longer than standard cables. Reinforced with synthetic fibre and a robust internal structure, it is built to withstand regular bending, plugging and unplugging without fraying or breaking. This ultra-rugged design makes it ideal for both home and office use, as well as for people who travel frequently and need a cable they can rely on every day.

Fast charging up to 3A for USB-C phones, tablets and laptops
Delivering up to 3A of current, this cable supports fast charging for compatible USB-C devices when used with an appropriate USB-A power adapter. Quickly power up your smartphone, tablet or USB-C accessories so you spend less time tethered to a wall and more time on the move. Whether you are topping up your phone before heading out or keeping your laptop accessories charged, the ALOGIC Ultra cable ensures a stable, efficient power delivery.

High-speed data transfer up to 480Mbps
With support for USB 2.0 data transfer rates up to 480Mbps, the cable is perfect for syncing photos, videos, music and documents between your USB-C device and a computer. Back up important files, transfer media or manage large folders without long waiting times. It provides a reliable connection that keeps your devices communicating smoothly, whether for work or entertainment.

Premium double-braided nylon cable with metal alloy housing
The cable is finished with a flexible double-braided nylon exterior that resists tangling, kinks and everyday wear. The cable heads are constructed from thermoplastic elastomer (TPE) for excellent strain relief, then encased in a durable metal alloy housing that protects the connectors from knocks and drops. This combination of materials not only looks and feels premium but also ensures long-term durability, even with constant use.

1.5m cable length for flexible, comfortable use
At 1.5 metres, the ALOGIC Ultra cable gives you the extra reach you need without excess clutter. Charge and use your device comfortably on the sofa, at your desk or beside your bed while it stays connected to a charger or computer. The length is ideal for both stationary setups and on-the-go use, fitting easily into a laptop bag or backpack while providing enough flexibility in tight or busy workspaces.

Package includes

- 1 x ALOGIC Ultra USB-A to USB-C Cable 1.5m - Silver

Product specifications

- Brand: ALOGIC
- Product name: Ultra USB-A to USB-C Cable for Fast Charging and Data Transfer 3A/480Mbps 1.5m
- Colour: Silver
- Cable length: 1.5 metres
- Connectors: USB-A male to USB-C male
- Max charging current: Up to 3A (fast charging, dependent on charger and device compatibility)
- Data transfer rate: USB 2.0, up to 480Mbps
- Cable jacket: Double-braided nylon for enhanced durability
- Connector housing: Metal alloy with TPE strain relief
- Construction: Reinforced with synthetic fibre for added strength
- Compatibility: USB-C smartphones, tablets, laptops and accessories with USB-A chargers or computers
- Warranty: 2 years
