- Shell-free adhesive attachment that removes cleanly

Ultra-slim premium leather folio for protection without bulk
Made from premium leather, SurfacePad covers the front and back of your iPad Air 2 while preserving its slim profile. It follows the lines of your device rather than enclosing it in a rigid plastic shell.

Multiple viewing angles and a built-in typing wedge
SurfacePad folds into a stable stand with multiple viewing angles for watching films, presenting slideshows or browsing the web. For typing, taking notes or sketching, fold the cover into a low-angle wedge for a more comfortable working position.

Soft, protective lining for your iPad display
The soft lining inside the front cover cushions your iPad Air 2 display and helps protect it from scratches, dust and minor bumps when the case is closed. Its smooth interior keeps the screen covered when you carry your iPad in a bag or backpack.

Smart Cover functionality for automatic wake and sleep
Open the front cover to wake your iPad Air 2 instantly. Close it to put the device into standby, helping to conserve battery power while keeping the screen covered and your content out of sight.

Shell-free adhesive attachment that removes cleanly
SurfacePad adheres directly to the back of your iPad Air 2 without a rigid shell, leaving the iPad's bevelled edge exposed and preserving its original look. To switch to another case, such as a waterproof or rugged model, simply peel SurfacePad off and reattach it later. It leaves no sticky residue or marks.
