Partial erase with built-in stylus eraser

Pen-on-paper, zero-delay writing on a brighter display
Enjoy a smooth, natural writing experience that feels just like pen on paper. The improved, brighter LCD makes lines clearer and easier to see from every angle, while pressure sensitivity lets kids vary line thickness with a familiar, lifelike touch.

Give ideas more room to grow. The expansive 25.4 cm screen offers ample space for diagrams, spelling practice, math problems, and expressive art—without the clutter of loose sheets.

Go greener while you learn. The reusable LCD screen replaces stacks of paper, and the high?efficiency design delivers up to a year of use or about 50,000 erases on a single replaceable CR2025 battery. Non?radiative and kid?safe by design.
