Full-grain leather protection
Crafted from full-grain leather, AirSnap helps protect your AirPods Charging Case from everyday scratches, scuffs and drops. The leather develops a rich patina over time.

Integrated swivel clip
Attach AirSnap to a backpack, handbag, belt loop or keyring with the integrated metal swivel clip. It keeps your AirPods within easy reach, whether you are commuting, at the gym or travelling.

Secure snap closure
The metal snap closure holds your AirPods Charging Case securely inside AirSnap. Fasten it to help prevent accidental opening and protect the case from bumps in your bag or pocket.

Charge without removing the cover
A precise bottom cutout provides access to the Lightning charging port, so you can plug in and recharge while the Charging Case stays in its leather cover.

Tailored for the Apple AirPods Charging Case
AirSnap provides a slim, snug fit without unnecessary bulk. Its carefully positioned seams and openings let you open the lid, check the status light and charge as usual.
