Twelve South SurfacePad for iPhone 11 - Thistle gray

SurfacePad from Twelve South is an ultra-slim, full-grain leather wallet case for iPhone 11 that protects the front and back of your phone. A built-in viewing stand, two card slots and Qi wireless charging support help you carry less while keeping the convenience of Apple Wallet and Apple Pay.

- Ultra-slim full-grain leather cover protects the front and back
- Built-in viewing stand for hands-free use
- Automatic wake and sleep support on compatible iPhone models
- Two integrated card slots for everyday essentials
- Supports Qi wireless charging without removing the case

Ultra-slim full-grain leather cover protects the front and back
Made from full-grain leather that develops a natural patina over time, SurfacePad provides lightweight protection for the front and back of your iPhone 11. It helps protect the glass from everyday contact with tables, countertops and keys in your bag. The slim cover leaves parts of your phone's design and colour visible.

Built-in viewing stand for hands-free use
Flex the back of SurfacePad to prop up your iPhone in landscape mode for watching films, making FaceTime calls or taking hands-free selfies. When you have finished, the stand folds flat to keep the case slim in your pocket or bag.

Automatic wake and sleep support on compatible iPhone models
On compatible iPhone models, opening the front cover wakes the phone, while closing it puts the screen to sleep. This makes screen control convenient and helps conserve battery life.

Two integrated card slots for everyday essentials
Two discreet slots inside SurfacePad's front cover hold essentials such as an ID, travel pass or bank card. Use them alongside Apple Wallet and Apple Pay: carry the physical cards you need in the case and keep supported payment cards, tickets and boarding passes digitally on your iPhone.

Supports Qi wireless charging without removing the case
SurfacePad supports Qi wireless charging with the case in place. Simply place your iPhone 11 on a compatible wireless charger—there is no need to remove the cover.
