4 499 SEK

Transform your meetings and presentations with the ALOGIC Unite 4K Wireless Presentation System. This innovative solution combines a Presenter Base and a USB-C Presenter Button to deliver seamless, high-quality wireless presentations in stunning 4K resolution.

- Effortless wireless connectivity
- Crystal-clear 4K resolution
- One-click presenting
- Multi-user collaboration
- Versatile compatibility

Effortless wireless connectivity

Say goodbye to cable clutter and connection hassles. The ALOGIC 4K Wireless Presentation System allows you to connect and present wirelessly with ease. Simply plug in the USB-C Presenter Button to your device, and you're ready to share your content on the big screen instantly.

Crystal-clear 4K resolution

Impress your audience with breathtaking visuals. This presentation system supports 4K resolution, ensuring that your content is displayed with exceptional clarity and detail. From intricate designs to high-resolution images, every element of your presentation will shine.

One-click presenting

Streamline your presentation process with the intuitive USB-C Presenter Button. With just one click, you can start sharing your screen, eliminating the need for complex setup procedures or software installations. Present with confidence and focus on your message, not the technology.

Multi-user collaboration

Enhance team collaboration and productivity with multi-user support. The ALOGIC 4K Wireless Presentation System allows multiple presenters to connect and share their screens seamlessly. Switch between presenters effortlessly, fostering dynamic and interactive meetings.

Versatile compatibility

Experience hassle-free connectivity across various devices and operating systems. The ALOGIC 4K Wireless Presentation System is compatible with Windows, macOS, and mobile devices, ensuring that you can present from your preferred platform without compatibility concerns.
