Usbepower Cosmo Cable USB-A to Ligtning 1m - White

Charge and sync your Apple devices with a cable designed to stay tidy. The Usbepower Cosmo combines a 1 m braided fabric cable, metallic connectors and a rubber ball winder that lets you adjust the cable length to suit your setup.

- Adjustable cable length with an integrated winder
- Apple MFi certified
- Charge and sync through one cable
- Braided fabric cable with metallic connectors
- 1 m length for everyday use

Adjustable cable length with an integrated winder
Keep excess cable neatly wound around the rubber ball. The integrated winder lets you adjust how much cable you use, helping you manage cable clutter at your desk or when carrying it with you.

Apple MFi certified
The Cosmo Lightning cable is certified under Apple's MFi programme. It is designed for use with compatible Apple devices equipped with a Lightning port, including iPhone and iPad models.

Charge and sync through one cable
Connect your Lightning-equipped Apple device to a compatible USB-A power source for charging, or to a computer for syncing. One cable handles both tasks.

Braided fabric cable with metallic connectors
The fabric-braided cable and metallic connectors give Cosmo a considered finish. Paired with the rubber ball winder, these materials bring together a distinctive look and practical cable management.

1 m length for everyday use
The 1 m cable provides reach for everyday connections without unnecessary excess. Unwind the length you need and keep the rest gathered around the winder.

Package includes

- 1 x Usbepower Cosmo USB-A to Lightning cable, 1 m
