

Baseus Compact Type-C 6-in-1 charger with 10W wireless charging - Space gray

Bring charging, data, and display connections together in one compact hub designed for modern Type-C laptops. This Baseus hub adds extra USB ports, 4K video output, fast Type-C PD power delivery, and a built-in wireless charging pad in a durable space gray body that stays cool under everyday use.

- 6-in-1 Type-C hub for everyday expansion
- 4K video output for external displays
- Type-C PD fast charging up to 60 W
- Built-in 10 W wireless charging pad
- Durable aluminum alloy body with stable, non-slip base

6-in-1 Type-C hub for everyday expansion

Connect the hub to your laptop's Type-C port to instantly add the connections you use most. With multiple USB ports available, you can keep accessories like a mouse, keyboard, USB drive, or portable storage connected at the same time, reducing the need to constantly plug and unplug devices.

4K video output for external displays

Use the video interface to connect to a compatible monitor or TV and output up to 4K resolution. It's a simple way to extend your workspace, mirror your screen for presentations, or enjoy content on a larger display when you're at home or traveling.

Type-C PD fast charging up to 60 W

The dedicated Type-C PD power port supports fast charging up to 20 V and 3 A, delivering up to 60 W. This allows you to power and charge a compatible laptop while you work, helping keep your setup tidy with a single hub handling both connectivity and power.

Built-in 10 W wireless charging pad

Place a wireless-charging compatible smartphone on the integrated charging surface for up to 10 W wireless charging. The design is intended to support stable charging with temperature control, helping reduce excess heat during daily use.

Durable aluminum alloy body with stable, non-slip base

The hub is built with aluminum alloy and tempered glass, designed for durability and effective heat dissipation. A non-slip rubber gasket at the base helps keep your phone stable on the wireless charging area, including when the device vibrates from calls or notifications.

Product specifications:

- Material: Aluminum alloy, tempered glass, TPE cable
- Input: Type-C 3.0, USB 2.0 compatible, 480 Mbps
- Outputs: 1 USB 3.0 port, 2 USB 2.0 ports
- USB 3.0 data transfer speed: up to 5 Gbps
- USB 2.0 data transfer speed: up to 480 Mbps
- Video output: 4K/HD
- Type-C PD: up to 20 V, 3 A, 60 W max
- Wireless charging: up to 10 W (for smartphones that support wireless charging)
- Suitable for: Laptops with a Type-C interface
- Working voltage: 5 V to 20 V
- Working current: 450 mA to 2550 mA

Package includes:

- Baseus Space gray compact hub with wireless charging (with integrated Type-C cable)
